JURASSIC PARK – OUR FUTURE?

Ms. McGaughan's Senior Seminars recently finished viewing *Jurassic Park* (1993) as part of their science fiction unit. When asked "do you think it is possible that humanity will attempt something like Jurassic Park in the future?" 81.7% of her students said yes! While discussing this, many students brought up the recent development with dire wolves being brought back from extinction. Are dinosaurs next?

CARPENTRY HOLDS ANNUAL EGG HUNT

Carpentry students had another successful Easter egg hunt this year in shop. Over 100 eggs were found amongst the groups with treats inside for the finders! Congratulations to Malik and Madison's group for finding this year's Golden Eggs!!! On behalf of Mr. Howley and the Carpentry dept they wish everyone a Blessed Easter Holiday!

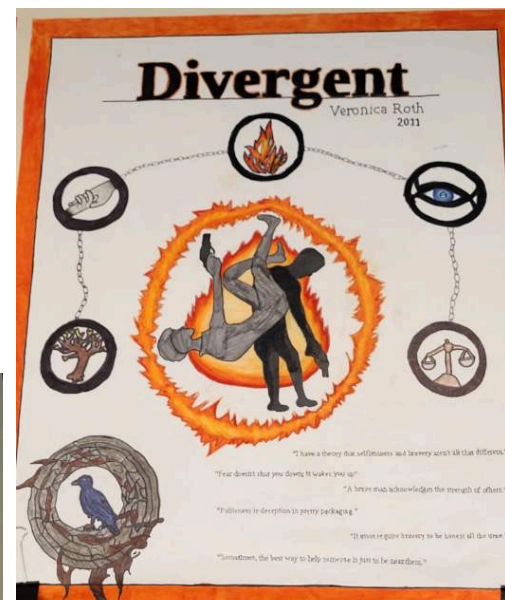

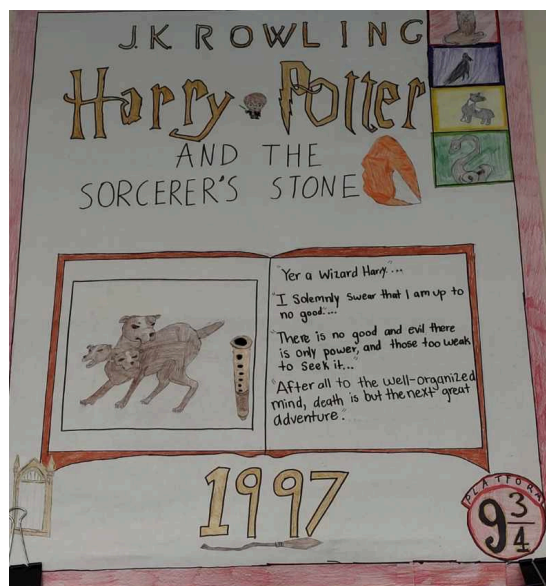

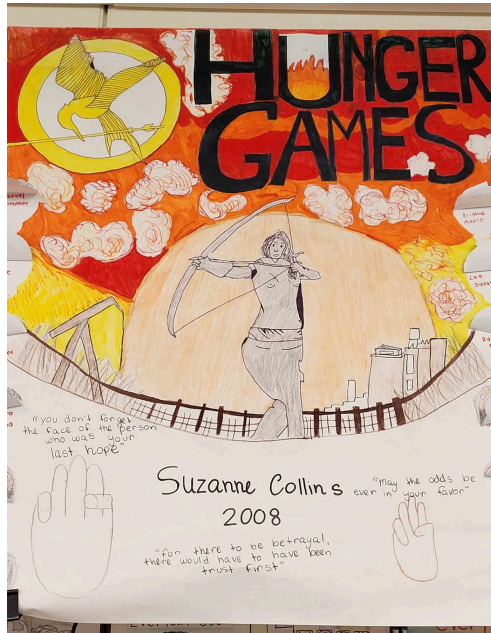

EOB JOB FAIR A SUCCESS!

This week, we hosted an incredible job fair where all our Junior and Senior students had the chance to connect with industry professionals, explore career opportunities, and plan for their futures! This event wasn't just about jobs—students also had the opportunity to learn about further education pathways and armed services options, helping them make informed decisions about their next steps. A huge THANK YOU to all our industry partners, colleges, and armed services representatives for taking the time to support and inspire the next generation.

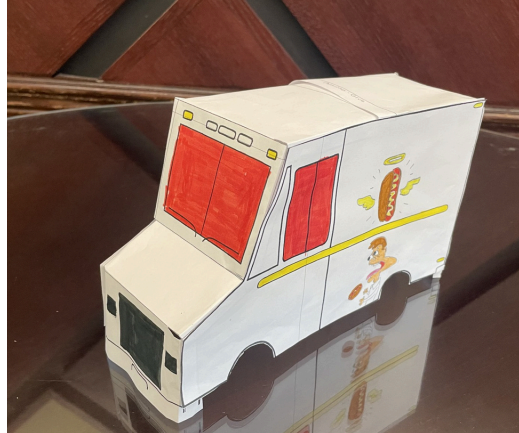

CELEBRATING FEMALE AUTHORS

Mr. Brennan's sophomore English class recently worked on a group art project celebrating Women's History Month. They worked together to create posters representing a classic novel written by a female author. The students did an amazing job researching images and quotes to reproduce on their posters. Check out the work of our talented artists!

FOOD TRUCK FUN

The Culinary freshmen have put together exciting food trucks, menus and shopping lists as part of their work in trade. Check out how creative they got! The “Flergus Fingers” truck was selected as the favorite by staff.
