Homecoming 2025

THE MITOCHONDRIA IS THE POWERHOUSE OF THE CELL

10th grade students in Ms. G and Ms. Rodorigo's Biology classes created cell models. Students showcased both their creativity and knowledge of cells!

Pictured: Hairdressing PAC meeting attendees with Chef Costa thanking him for the delicious wraps and cookies he made for the meeting.

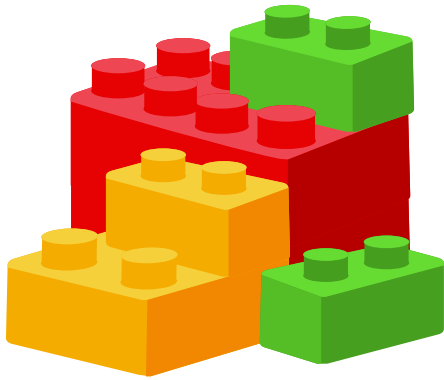

In Ms. Phipps's Comparative Literature, Film, and Media class, students are working on an independent project where they are applying concepts they are learning to their own choices of media. In this picture, students gathered around a peer's work in progress to give positive feedback.

Nicole from SuperCuts helped students with their clipper cut when she came on November 5th! Her demo was a new clipper technique and the seniors enjoyed watching and then doing it. It's never too late to learn new skills.

CLUB DAY FUN

This is awarded to students who go above and beyond to help classmates, the teacher and demonstrate professional behavior in shop. The students love the Star Student award and celebrate the winner with enthusiasm. They all do their best work throughout each cycle in hoping to be the next recipient.
